VIDEO AND STREAMING SERVICES – IET.TV

Full-service built-in video and streaming production unit

We are a full-service video and production unit within the IET, structured with in-house producers, camera teams, broadcast technicians and editors, who can assist you at every stage of your project or event.

We have our own state-of-the-art camera and recording equipment integrated into the venue, meaning you can rely on us to provide a seamless experience within IET London: Savoy Place, and where possible, avoid the costs of renting additional equipment. We work closely with our clients around the world, including agencies, corporate clients, and fellow institutions, to create high-quality events and programming.

Services

Pre-event recording

Battling global constraints? Get content that could be missed from key speakers not able to attend or simply be prepared with a backup by pre-recording your speakers. In-person or virtual pre-record options available, fully edited ready to be part of your event.

Live video relay

Broadcast-quality camera feeds delivered directly to the Kelvin Lecture Theatre's new LED wall and throughout the venue.

Multi-camera and live vision mixed recording

Capture your event from multiple angles in the Kelvin Lecture Theatre, or any room across the venue, live edited with our state-of-the-art vision mixing equipment, creating high-quality videos ready for use post-event.

Live streaming

Live stream your event via your platform or platforms of choice, providing a broadcast-quality and an interactive experience to your online audience.

Remote presenter integration

Hybrid integration, bringing in your speakers remotely from across the world seamlessly to your in-person event and online audiences, ready to present with slides and engage with audience Q&As.

Promotional filming and editing

For post-event marketing, we can provide full video production services, from detailed pre-production planning and promotional filming on the night to editing multiple outputs tailored for your social media platforms. Need a faster turnaround? Book an on-site editor to attend the event and create your videos as the action unfolds.

Quotation

A formal quotation can be supplied subject to specification. Please contact savoyplace@theiet.org.

Technical options

Green screen and backdrop facilities

Whether you're producing corporate videos, interviews, social media content, commercials, or training videos, we offer fully equipped green screen and white backdrops suitable for a variety of spaces within the venues.

Pan, Tilt, Zoom (PTZ) remote-controlled cameras

Both built into the Kelvin Lecture Theatre's infrastructure and fully transportable across the venue, provide an ideal solution for low-profile set-ups or capturing additional angles without the need for extra technicians.

Full broadcast-quality 4k cameras

Available in both manned and unmanned options, deliver high-quality output for all aspects of your event recording needs, including session capture and promotional filming.

Graphical support

With options to create lower thirds, picture-in-picture slide templates, and live-stream graphics packages aligned to your company's branding.
